

FIG. 1

FIG. 2

FIG. 3

Figure 1 is a schematic diagram of an optical system. A display panel 30(31) is shown on the left. Light rays from the panel pass through a series of optical components. The light first passes through lenses 10L and 10R, then through mirrors 11L and 11R, and finally through lenses 20L and 20R. The light is then reflected by mirrors 2L and 2R into the eyes of a user, labeled EL and ER, through eyepieces 40L and 40R. The diagram illustrates the optical path for both the left and right eyes.
